

Honoring Giorgio Fusco

8th IST-IME Meeting

September 5-9, 2022
Instituto Superior Técnico
Lisboa, Portugal

<https://istime.math.tecnico.ulisboa.pt>

This meeting, whose scope comprises Ordinary and Partial Differential Equations and related topics, aims to promote integration of researchers of both IST and IME (and other institutions), with the presentation of research works and plenary lectures of the participants.

This edition will honor **Giorgio Fusco** who has been a major contributor to the IST-IME link.

The meeting will also include a special session in memoriam **Jorge Sotomayor** (1942-2022) who had strong ties with the IST-IME meeting series and whose absence is sadly missed.
